=====

## PROFESSIONAL SUMMARY

=====

Total Years of Experience: 0

Recent Computer Science graduate from Beirut Arab University seeking an entry-level software engineering position. Eager to apply academic knowledge and hands-on experience

in React, C++, C# to contribute to innovative projects.

=====

## EDUCATION

=====

Bachelor of Science in Computer Science

Beirut Arab University (BAU)

GPA: 2.86/4.0 | Class of 2026

Relevant Coursework:

Computer Networks, Artificial Intelligence, Software Engineering, Data Structures & Algorithms, Cloud Computing, Operating Systems

=====

## PROFESSIONAL EXPERIENCE

=====

Backend Development Intern

CloudNine Systems | Summer 2026

- Built RESTful APIs using Node.js and Express. Implemented caching strategies with Redis.

=====

## PROJECTS

=====

[1] Full-Stack E-Commerce Platform

Technologies: React, Node.js, Express, MongoDB, Stripe, JWT

Built a complete e-commerce solution with React frontend and Node.js backend. Implemented user authentication, product catalog, shopping cart, and Stripe payment integration.

## [2] Task Management API

Technologies: FastAPI, PostgreSQL, SQLAlchemy, JWT, Docker, Pytest

Designed and implemented a RESTful API for task management with role-based access control, JWT authentication, and PostgreSQL database.

## [3] Real-Time Collaborative Editor

Technologies: React, Node.js, WebSocket, MongoDB, Redis, Docker

Created a Google Docs-like collaborative editor with real-time synchronization. Uses WebSocket for live updates, operational transformation for conflict resolution.

## [4] Image Classification CNN

Technologies: Python, PyTorch, TensorFlow, CNN, Deep Learning, NumPy

Trained a convolutional neural network for multi-class image classification on CIFAR-10 dataset. Achieved 92% accuracy using data augmentation and transfer learning.

=====

## TECHNICAL SKILLS

=====

Languages: C++, C#, Python

Frontend: React

Backend: Express, REST API

Databases: SQL

AI/ML: PyTorch
