=====

## PROFESSIONAL SUMMARY

=====

Total Years of Experience: 4

Experienced Data Scientist with

4+ years of experience building and scaling production systems. Proficient in {top\_skills}. Passionate about solving complex technical challenges and delivering high-quality software solutions.

=====

## EDUCATION

=====

Bachelor of Science in Computer Science

Beirut Arab University (BAU)

GPA: 3.4/4.0 | Class of 2023

Relevant Coursework:

Computer Architecture, Artificial Intelligence, Cybersecurity, Compiler Design, Computer Networks, Machine Learning

=====

## PROFESSIONAL EXPERIENCE

=====

Junior Software Engineer at Pioneer Tech | 2023 - 2026

- Implemented unit tests and participated in code reviews.

Data Scientist at PixelCraft Studios | 2023 - 2024

- Built predictive models improving customer retention by 401%.

=====

## PROJECTS

=====

[1] Global CDN & Edge Computing Platform

Technologies: Go, Redis, Kubernetes, gRPC, Cloudflare, AWS

Designed a multi-region CDN platform with edge computing capabilities. Reduced global latency by 60% and handled 100TB daily traffic.

=====

TECHNICAL SKILLS

=====

Frontend: Angular

Backend: REST API, Node.js

Databases: PostgreSQL

AI/ML: Deep Learning, TensorFlow

Fundamentals: System Design
