PROFESSIONAL SUMMARY

=====

Total Years of Experience: 7

Experienced Senior Backend Developer with

7+ years of experience building and scaling production

systems. Proficient in {top_skills}. Passionate about solving complex

technical challenges and delivering high-quality software solutions.

=====

EDUCATION

=====

Bachelor of Engineering in Computer Science

Lebanese American University (LAU)

GPA: 3.09/4.0 | Class of 2020

Relevant Coursework:

Cybersecurity, Artificial Intelligence, Data Structures & Algorithms, Cloud Computing, Software Engineering, Web Development

=====

PROFESSIONAL EXPERIENCE

=====

Backend Developer at NexGen Digital | 2025 - 2026

- Implemented authentication, authorization, and data validation layers.

DevOps Engineer at BayanLabs | 2022 - 2025

- Automated infrastructure provisioning using Terraform and CI/CD pipelines.

Senior Backend Developer at Apex Innovations | 2021 - 2024

- Architected distributed backend systems serving 1476 concurrent users.

=====

PROJECTS

=====

[1] Multi-Tenant SaaS Platform

Technologies: Redis, PostgreSQL, React, Node.js, Docker, AWS

Led development of a multi-tenant SaaS platform serving 500+ enterprise clients. Implemented tenant isolation, usage metering, and self-service admin portal.

[2] Global CDN & Edge Computing Platform

Technologies: Go, Redis, Kubernetes, gRPC, Cloudflare, AWS

Designed a multi-region CDN platform with edge computing capabilities. Reduced global latency by 60% and handled 100TB daily traffic.

=====

TECHNICAL SKILLS

=====

Languages: C#, Rust

Backend: REST API

Databases: MySQL, Elasticsearch, Redis, MongoDB

AI/ML: Computer Vision

DevOps: Linux

Fundamentals: System Design
